

# Precipitation: 50%

Category: The Waiting Room  
written by Rita Ciresi | May 5, 2016

Sitting in the oncologist's waiting room is like watching the weather report.

While the Storm Team meteorologist gasses on about wind speed, humidity, visibility and dew point, I just want to reach into the TV, grab this guy's necktie and command him: "Just tell me how hard it's going to rain!"
