my lab
was blind,
and he had
a seeing eye
cat
called Molly
who took him around

we gave you a mess
and we're guilty of that, too...

& then the lamprey came in & it was
easier for them to kill of f.
A lot of fishermen claim it was the lamprey,
but we were 2-legged lamprey

I got the
A M A
Book on Health
and I been reading
it agrees with
what they say,
you know, about
the hurting
& stuff,
but can't
nothing be
done 'cause
you born
with it &
what-not.

My heart's quit on me...
We go to church every Sunday and meet
people...
I didn't go up to the 5th grade.
It was 4 miles to the schoolhouse,
had to walk.
They didn't make you go to school back then,
so I didn't go...
I get my grocery buggies
and I can walk.
